SUBJECT INDEX—PROCESSES

Core Drilling (in Civil Engineering)
Drilling for safety in the North Sea, 128
A new foundation for a wartime memory, 153
Target announces new diamond drill, 231
New metric core drills use synthetic diamond, 331
Drained furnaces happen faster, 349
A new approach at Manchester, 387
Synthetic grit helps synthetic production, 421

Dressing and Truing
Details of major European conference announced by De Beers, 125
The use of random process analysis to study the dressing of abrasive grinding wheels with diamond tools, 162
A new truing and dressing technique for resin-bond peripheral grinding wheels, 203
SYNDITE tools for truing and dressing, 314
Cutting production time at Suffolk Lawnmowers, 403

Drilling (see also Core Drilling, Rock Drilling)
A new foundation for a wartime memory, 153
SYNDITE in rock machining, 289
Target announce new diamond drill, 331
A new approach at Manchester, 387
Synthetic grit helps synthetic production, 421
Hydraulic power unit from Target, 443

Engraving
The modern carriage clock has a touch of brilliance, 126
New soldering and thermal writing instruments have diamond tips, 172
Fit for a Queen, 284
Gem engraving—a dying art, 400

Grinding
Ultra-hard abrasives in resin bond applications, 15
A fast approach to steel inclusion assessment, 39
Precision machining of non-metallic materials—some practical guidelines, 43
Eskenazi presents seminars in Carrara and Turin, 55
Creep feed grinder, 61
Details of major European Conference announced by De Beers, 125
Alexander 2CG cutter grinder, 129
Lapping and fine grinding machines, 129
Creep feed profile grinding with ABN300, 131
The use of random process analysis to study the dressing of abrasive grinding wheels with diamond tools, 162
Grinding hardenable steel bonded carbide alloys with diamond wheels, 195
A new truing and dressing technique for resin bonded peripheral grinding wheels, 203
A story from Italy—origin and development of CAFRO, 246
SYNDITE cutting tools—preparation and u se 277
Diamond wheel sales accelerate in USA, 286
AMBER BORON NITRIDE tools—some results from the USA, 311
SYNDITE tools for truing and dressing, 314
Diamond grinding of metals, 323
A thousand carbon copies per wheel, 366
Factors influencing the performance of the CDA family of resinoid bond grits, 391
Cutting production time at Suffolk Lawnmowers, 403
Semiconductor silicon—production and diamond machining, 424
Grinding adds life to Alabama highway, 432
Preparing archaeological specimens for analysis, 434
Crystal technology, 437

Honing
Honing—a precision machining operation with ultra-hard abrasives, 90
Finish machining of bores now a simpler operation, 398

Inspection, Measuring Techniques, Quality Control
A fast approach to steel inclusion assessment, 39
Diamond powder filler, 61
Instrument measures E-modulus, 61
XYTEC Downtimer, 219
Where quality control is a matter of life, 248
S.E.M. will benefit diamond tool industry, 250

Lapping and Polishing
Diamond tools in the lapidary arts, 12
A fast approach to steel inclusion assessment, 39
Diamond probes secrets of Venus, 115
Fresnel lenses for collecting solar energy, 119
Lapping and fine grinding machines, 129
Mirror-finished dies provide the proof, 170
Photochromic mass surfacing to micron tolerances, 191
Synthetic diamond compounds come of age, 320
The cutting and polishing of electro-optic materials, 437
Lapping accurate thin sections, 443

Machining, Electrolytic Machining
AMBER BORON NITRIDE tools—some results from the USA, 311
Cutting and polishing of electro-optic materials, 437

Non-Cutting Applications (Styli, Gauge Points, Heat Sinks, Wear Resisting Coatings, etc)
Diamond probes secrets of Venus, 115
Diamond coatings for increased wear resistance, 251

Optical Machining, Lens Machining
Spectacle lens technology, 96
Fresnel lenses for collecting solar energy, 119
Photochromic mass surfacing to micron tolerances, 191
More diamonds in the High Street, 214
A new type diamond wheel tames the polycarbonate lens, 324
Cutting and polishing of electro-optic materials, 437

Polishing *see* **Lapping & Polishing**

Rock Drilling
Details of major European conference announced by De Beers, 125
A diamond driller reminisces, 130
SYNDITE in rock machining, 289
SDA100 in hard rock drilling, 352

Sawing & Safety Grooving (of Concrete, etc, also 'Bump Cutting' & Concrete Planing)
Sawing in the stone and civil engineering industries, 56
Precise alignment with new Target groover, 87
Cutting for construction, 96
Another successful application of step grooving, 97
Random Crack Saw now available in UK, 211
Tough aggregates tamed in Louisiana airport project, 218
Step-groover from Target, 219
A new approach at Manchester, 387
Hogs get a firmer footing, 402
Synthetic grit helps synthetic production, 421
Grinding adds life to Alabama highway, 432
Power disc cutter lays the dust, 443

Sawing (Materials other than Concrete)
New Italian stone sawing machine uses American wire, 10
Diamond tools in the lapidary arts, 12
Eskenazi presents seminars in Carrara and Turin, 55
Sawing in the stone and civil engineering industries, 56
More chips per slice, 79
A study of the surface obtained when sawing ceramic high-tension insulators, 83
Bone specimens sliced precisely, 88
Diamond probes secrets of Venus, 115
Fresnel lenses for collecting solar energy, 119
Details of major European conference announced by De Beers, 125
Diamond band saw, 129
Where quality control is a matter of life, 248
A smoother route to the microscope, 273
SYNDITE in rock machining, 289
The problem of noise and its relevance to sawing with diamond blades, 326
The slotting of blocks of hard rock with a diamond segmented circular sawblade, 356
A thousand carbon copies per wheel, 366
Semiconductor silicon—production and diamond machining, 424
Preparing archaeological specimens for analysis, 434
Crystal technology, 437
Power disc cutter lays the dust, 443
Hydraulic power unit from Target, 443

Screening of Powders, Particle Size Analysis, Recovery
Diamond powder filler, 61

Turning & Boring (also Fly-Cutting, Milling of Metals, etc)
Faster superfine finishes with programmable lathes, 8
Commutator production efficiency improved, 21
Turning GRP components with SYNDITE—tests indicate new material's potential, 52
The modern carriage clock has a touch of brilliance, 126
A new machine for diamond turning of pistons, 212
Bryant Symons in Detroit, 219
SYNDITE cutting tools—preparation and use, 277
Finish machining of bores now a simpler operation, 398

Wire Drawing
Details of major European conference announced by De Beers, 125
SYNDITE wire drawing dies—field test results, 242

Brick *see* **Masonry, Refractories**

Carbide *see* **Tungsten Carbide**

Carbon
Precision machining of non-metallic materials —some practical guidelines, 43
A thousand carbon copies per wheel, 366

Ceramics
Precision machining of non-metallic materials —some practical guidelines, 43
Eskenazi presents seminars in Carrara and Turin, 55
A study of the surface obtained when sawing ceramic high-tension insulators, 83
Properties, applications and manufacture of cobalt-samarium base permanent magnets, 437
SYNDITE profile tools and their potential applications, 442

Concrete & Asphalt
Sawing in the stone and civil engineering industries, 56
Precise alignment with new Target groover, 87
Cutting for construction, 96
